

# International Conference on Web Engineering

<2006>

The Sixth International Conference on Web Engineering (ICWE 2006) aims at bringing together the international community of experts in Web Engineering research, practice, and education.

CWE 2006 follows earlier conferences in the series held in Sydney, Australia (2005); Munich, Germany (2004); Oviedo, Spain (2003); Santa Fe, Argentina (2002); and Caceres, Spain (2001).

The Conference is jointly organized by the Stanford Linear Accelerator Center; University of San Francisco; University of California, Santa Cruz.

## Keynote Speakers:

- Bernardo Huberman, Senior HP Fellow, Director of the Information Dynamics Laboratory, Hewlett-Packard (confirmed)
- Others to be announced

## Topics:

- Representing knowledge on the Web
- Usability and the Web:
- Building and Maintaining the Web
- Education and the Web

## Organizing Committee:

### General Co-Chairs:

David Wolber, University of San Francisco  
Neil Calder, Stanford Linear Accelerator Center

### Program Co-Chairs:

Chris Brooks, University of San Francisco  
Athula Ginige, University of Western Sydney

### Local Arrangements Chair:

Bebo White, Stanford Linear Accelerator Center

### Promotion and Marketing Chair:

Terence Parr, University of San Francisco

### Budget Chair:

Jim Whitehead, University of California, Santa Cruz

### Keynotes Speakers Chair:

T.V. Raman, IBM Almaden

### Posters/Demos Chair:

Alolita Sharma, Technetra

### Tutorials and Workshops Co-Chairs:

Nora Koch, Ludwig-Maximilians-Universität München  
Luis Olsina, UNLPam, Argentina

## Important Dates:

Deadline for paper abstracts:	3 February 2006
Deadline for paper/demo submissions:	10 February 2006
Notification of paper acceptance:	1 April 2006
Deadline for final versions:	19 April 2006
